

## PET SAVERS NEEDS FOSTER PARENTS!!

It's kitten season at the Gloucester County Animal Shelter. If you love animals and want to help save some lives, become a foster parent. We have "bottle" babies and non-bottle babies in need of good foster homes. We also have moms and babies that you can foster together.

GCAS will provide you with everything you need, including:

- Bottles
- Formula
- Food
- Litter
- Toys
- Blankets

All you need to provide is a loving temporary home until the kittens weight about 2 pounds and are ready for adoption. This is usually around 10 weeks of age.

You will need to bring the kittens back to the shelter for shots and spaying/neutering but the shelter will guide you through that process.

For more information or to fill out a Foster Home application contact the Gloucester County Animal Shelter at 881-2828.

You can also apply to foster at the Deptford, Mantua and Turnersville PetSmart stores.
